Erichson
Hearing Aid Center

This is my Oticon open; I can actually understand people when I wear it; and it just opened the world to me!

My hearing aid is now my favorite thing I own. Erichson Hearing Aid Center in Erie, PA thank you guys so much.

Take the Oticon Better Hearing Challenge!

Can your hearing aids stand up to the challenge?

A revolutionary new hearing aid that is proven to provide better speech understanding with less effort in noisy environments.

Step Up to the 360° Open Sound Experience

The Oticon MORE model is ready to take on traditional hearing aid technology, which copes with noise by restricting sounds and focusing on a single source of sound at a time.

Instead, the 360° open sound experience that the MORE model gives your brain access to all of the relevant sounds all around you. That puts you - not your hearing aid - in charge of which sounds you want to focus on.

Technology Up to the Challenge

Even hearing aids introduced just two to three years ago are no match for the groundbreaking technology in MORE model.

- BrainHearing™ technology scans the environment 100x per second, giving you constant access to 360° sound support.
- Speech understanding in difficult listening situations at the level of people with normal hearing.
- Better understand what's spoken, with less strain, and remember more of what people say.
- Easy wireless connections and super-fast rechargeable batteries for a full day of power.

Greetings!, Erichson Hearing Aid Center will be offering **FREE** Hearing Tests to members of our community. If you or a loved one have hearing difficulties, we encourage you to call today for your free Hearing Test.
